

Entity Structure and Organization

Boone County is situated in Central Missouri and is dissected by Interstate 70 and US Highway 63. It is a fast-growing county known for its highly educated work force, low cost of living, award-winning schools, and unique blend of rural and urban lifestyles. Boone County includes nine communities: six cities and three towns. The County has a population of approximately 137,000 and contains 685 square miles. The County is empowered to levy a property tax on both real and personal property located within its boundaries.

The County was organized in 1821 under applicable state statutes and continues under the same form of government to this day. The structure and operations of the County are governed by state statute rather than by local charter. To the extent allowed by state statute, policymaking and legislative authority are vested in the County Commission, which consists of a Presiding Commissioner and two Associate Commissioners, each of whom serve full time and are elected to four-year terms. The County Commission is responsible, among other things, for passing ordinances, adopting the annual budget, appointing committees, and hiring certain departmental directors (Information Technology, Planning & Zoning, Public Works, Human Resources, and Purchasing). The Commission is also responsible for approving the long-range operating plans for these departments. The Presiding Commissioner is elected at large and the two Associate Commissioners are each elected from within their respective district.

All other elected officials also serve four-year terms and are elected at large. Each elected official is responsible for establishing strategic goals, objectives, and operating polices and procedures for his or her office and for discharging statutory responsibilities. Although the County Commission is not responsible for establishing or approving strategic plans for each elected official, the County Commission is responsible for approving the annual operating budget for each elected official. The Commission has final authority regarding all County-owned fixed assets. This elective form of government presents unique challenges in terms of developing long-term organizational-wide goals, policies, and strategic plans. It results in a budget that emphasizes short-term departmental goals to a greater degree than long-term entity-wide goals.

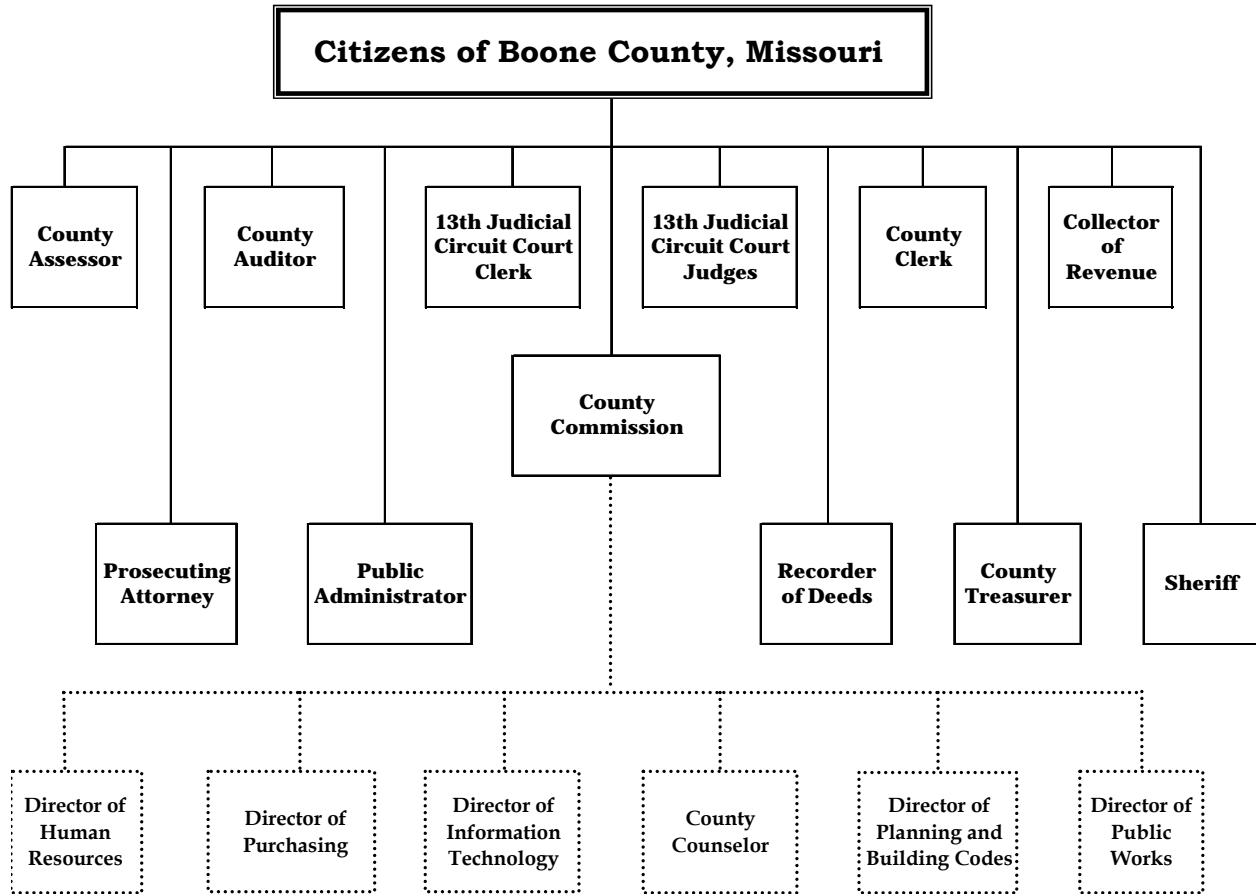

Missouri statutes make no provision for the County Commission to establish countywide policies or systems such as personnel policies or a uniform job classification system. Boone County officials, however, have worked cooperatively in these areas for many years and have supported development and adoption of countywide policies and procedures. Although elected officials are not required by statute to adhere to such policies, most officials voluntarily subscribe to them. Boone County is unique among other Missouri non-charter counties in this regard. (The Thirteenth Judicial Circuit Court adopts separate personnel policies.)

Organizational Chart

Budget Calendar and Process

Boone County's budget process is governed by the Revised Statutes of Missouri (RSMo) 50.525-50.641. Boone County is a first class non-charter county where the County Auditor serves as Budget Officer. The following provides an overview of the budget process and important timetable dates.

- July: County Auditor develops and distributes budget guidelines and instructions to each elected official and department head
- August 15th: Statutory deadline for the Circuit Court to submit budget request
- September 1st: Statutory deadline for submitting budget requests to Auditor
- September 10th: County Auditor prepares budget requests for offices and agencies not submitting requests by this date
- September and October: County Auditor reviews budget requests and meets with elected officials, department directors, and County Commission, as necessary
- November 15th: County Auditor delivers Proposed Budget to County Commission
- November 15th through December 15th County Commission holds public hearings on the Proposed Budget
- January 10th: Statutory deadline for adoption of budget by the County Commission (The statutory deadline is January 10th except in a year in which the terms of any county commissioners expire; in those years, the deadline for the new Commission is January 31st.)

Budget Revisions and Budget Amendments

Occasionally the County will encounter a need to either revise the existing budget to reflect a change in the use of an appropriation or to amend the budget to approve increased spending authority of a specific fund. Missouri statutes do not address budget revisions and these are governed by County Commission policy: requests for budget revisions that exceed established thresholds require approval by two of the three Commissioners. Missouri law requires that a budget amendment be scheduled on the County Commission agenda and handled in the same manner as the annual budget, with at least one public hearing and documents made available for public inspection.

Statutory Provisions Governing Circuit Court Budgets

The Circuit Court Clerk is charged with the responsibility of transmitting the Circuit Court's budgets, as approved by the court en banc, to the Budget Officer on or before September 1st of each year. Additionally, the Presiding Judge of the Circuit Court, or his designee, is required to meet with the County Commissioners and the Budget Officer no later than August 15th of each year in order to "confer and discuss with them the Circuit Court's estimates of its requirements for expenditures and its estimates of its revenues for the next budget year" (RSMo Chapter 50, sections 640-642). The statutes require that the Budget Officer include the Circuit Court's budget estimates in the County's budget without change; any change in the estimates requires the consent of the Circuit Court or the Circuit Clerk. In the event the governing body finds the Court's estimates to be unreasonable, it may file a petition with the Judicial Finance Commission. When this course of action is pursued, every attempt is made to resolve the dispute prior to the beginning of the fiscal year in question. If this is not possible, an amount equal to the budget estimates in question is placed into a separate escrow account and is not expended until a final determination is obtained.

Description of the Accounting and Budgeting System

The County adopts an annual budget for its calendar fiscal year in the manner set forth by Missouri statutes. As described below, County operations are accounted for in many different funds and individual budgets are adopted for each of these funds. The County Commission is the appropriating authority for all of the funds except certain special revenue funds for which another elected official has been named as the appropriating authority by state statute. (Refer to the Overview and Description of Special Revenue Funds and Other Funds in the General Information section.) However, it is common to refer to these individual fund budgets collectively as “the County Budget”. State law requires all budgets to be balanced and annual operating budgets are required for all funds from which moneys are expended. Budgets may be amended throughout the year to establish spending authority and this is particularly common for those funds that are under the appropriating control of elected officials other than the County Commission. Aggregate financial data for each individual fund as well as summary information for groupings of various funds is presented in the Financial Summaries section of this document.

In addition to preparing an annual budget each year, the County prepares annual financial statements and obtains an independent audit of those financial statements. In preparing its budget, the County uses a slightly different basis than in preparing its financial statements. This is described in greater detail below, but the primary difference is that for budgetary purposes, encumbrances (open purchase orders or other budgetary commitments) are treated as expenditures, whereas in the financial statements these commitments are not treated as expenditures, but as a reserve of fund balance.

The County administers numerous funds, which are described below. The majority of county operations are accounted for in the County’s major funds which include the General Revenue Fund, the Road and Bridge Fund, and the Law Enforcement Services Fund. However, a complete understanding of the County’s budgetary and financial activities requires a review of *all* the funds. Accordingly, this document is designed to provide a comprehensive overview of the County’s entire financial structure and activities.

This budgetary document contains information for all funds for which the County Commission or another county elected official is the appropriating authority and for which the County Treasurer maintains custody of the moneys. The County’s Comprehensive Annual Financial Report (CAFR) contains some funds in addition to those that are presented in this document. Specifically, the CAFR contains financial information for the County’s one component unit (Boone Hospital Board of Trustees) and two special revenue funds under the jurisdiction of the Circuit Court which are maintained separately by the Court in its own checking account. Additionally, the County’s CAFR includes various agency and trust funds which are not subject to appropriation and therefore are not included in this budgetary document. From time-to-time, the CAFR will contain funds related to the Neighborhood Improvement District (NID) Program, described below, which are not included in this document.

The County implemented the NID program in the early 1990’s. This program allows the County to approve and construct road or sewer projects and then recover the costs of these projects in full from property owners. Periodically, the County issues general obligation bonds for these projects; however, taxes are not levied or collected to retire

Description of the Accounting and Budgeting System cont'd

the debt because the property owners are responsible for these costs. NID budgets are established as the County Commission approves projects throughout the year. As a result, *NID funds* have been excluded from this document; however, all of the related debt service funds are included and account for the special assessment revenue and principle and interest expenditures. A description of past and current NID projects is included in the Overview and Description of Other Budgets section. It is very likely that additional NID budgets will be approved in the future. Portions of the General Fund are reserved in an amount equal to temporary financing provided by the General Fund during construction. The reservations are released once general obligation bonds are issued.

Basis of Accounting and Budgeting

Boone County's accounting system has been designed to meet the requirements of generally accepted accounting principles (GAAP) for governmental entities as prescribed by the Governmental Accounting Standards Board (GASB). Consequently, the County's Comprehensive Annual Financial Report includes entity-wide financial statements prepared on a full accrual basis of accounting as well as fund statements prepared on a modified accrual basis of accounting. In general, under the modified accrual basis of accounting, revenues are recognized when they become measurable and available and expenditures are recognized when the related fund liability is incurred. Annual financial reports for proprietary and fiduciary funds are prepared on a full accrual basis. Under this method, revenues are recognized when earned, and expenses are recognized when liabilities are incurred without regard to receipt or disbursement of cash. (For full disclosure of the County's accounting policies, please refer to the County's Comprehensive Annual Financial Report.)

The budget, on the other hand, is prepared on a basis which includes encumbrances as the equivalent of expenditures. Under this method, encumbrances, representing purchase orders, contracts, and other commitments, are reported as a charge to current year budget. Unencumbered appropriations lapse at the end of the fiscal year (December 31). Consequently, amounts presented in the budget document differ from the County's annual financial statements.

Description of Funds

The accounting and budgeting systems are both based on funds; and, as is the case with most governmental entities, Boone County maintains numerous funds. Each fund is considered a separate accounting entity. Operations of individual funds are accounted for with a separate set of accounts that consists of its assets, liabilities, fund equity, revenue and expenditure or expenses, as appropriate. County resources are accounted for in each fund based on the purpose for which they are spent. Most of the funds are required by law and have been established to provide proper tracking of the income and expenses of the County. A short description of each fund type follows.

Description of the Accounting and Budgeting System cont'd

Governmental Funds are governed by standards developed specifically for government activities.

- General Fund (a major fund)

The General Fund is the general operating fund of the County and it is the most active fund in the accounting system. It is used to account for all financial resources except those required to be accounted for in another fund.

- Special Revenue Funds

Special Revenue Funds are used to account for the proceeds of revenue sources (other than expendable trusts or major capital projects) that are restricted as to use.

- Road and Bridge Fund (a major fund)

The revenues and expenses of the Public Works Department are tracked separately because the income for the department comes from a special property tax provided for in the Statutes of Missouri and a special sales tax approved by the voters. Income to the Road and Bridge Fund can only be used for road and bridge maintenance and improvements.

- Law Enforcement Services Fund (a major fund)

This fund was created to account for the one-eighth cent law enforcement sales tax revenues and related expenditures.

- Other Special Revenue Funds

The Statutes of the State of Missouri set out several special funds that are maintained by the County. Some examples of these statutory funds are the Record Preservation Fund, the Bad Check Collection Fund, the Sheriff's Training Fund, and several others. The County is responsible for accounting for all income and expenses for each of these special activities; therefore, the special funds are separately maintained.

- Debt Service Funds

Debt Service Funds are used to account for the accumulation of resources for and the payment of general long-term principal, interest and related costs. Some examples of these funds are the Nursing Home Bond Fund and the Bridge Bond Fund.

- Capital Projects Funds

Capital Projects Funds are used to account for financial resources which are used for all acquisition or construction of major capital facilities.

- Neighborhood Improvement District Funds

The statutes of the State of Missouri allow the County Commission to create Neighborhood Improvement Districts (NIDs). Current county policy provides for the formation of such districts only for the purpose of financing roadway and sewer improvements. The property owners within a NID pay for such improvements through a special assessment. Each NID fund accounts for all expenditures associated with the improvement project and the subsequent special assessment revenues.

Description of the Accounting and Budgeting System cont'd

Proprietary Funds are governed by the same accounting standards which apply to private business. Proprietary funds may include both enterprise funds and internal service funds.

- **Internal Service Funds**

Internal Service Funds are used to account for activities that produce services to be provided to other county departments on a cost-reimbursement basis. For instance, the Self-Health Trust fund accounts for the operations of the County's Self Insured Health Plan for county employees and the Building and Grounds fund accounts for facilities maintenance and housekeeping activities.

- **Enterprise Funds**

The County does not operate any business-type activities and therefore does not use enterprise funds.

Fiduciary Funds are used to account for the County's custodial or fiduciary activities pertaining to various trust and agency funds. Note: the County does not budget these funds because the resources and assets of these funds do not belong to the County and therefore cannot legally be appropriated by the County Commission for county purposes.

- **Private Purposes (Non-Expendable) Trust Funds**

The County serves as trustee for several non-expendable trusts. Corpus amounts are to remain intact while investment income is used for the activities specified in the trust documents.

- **Trust and Agency Funds**

Trust and Agency Funds are used to account for assets held by the County in a trustee capacity or as an agent for individuals, private organizations, other governments and/or other funds.

Overview of the Fund-Department-Account Code Structure

Each line item in the accounting system consists of three elements: the fund number, the department number, and the account number.

Fund Numbers are identified by a unique three-digit number. The first digit of the fund number denotes the fund family to which the fund belongs. For instance, 1XX denotes the general fund family; 2XX denotes the special revenue fund family; 3XX denotes the debt service fund family; 4XX denotes the capital projects fund family; 5XX denotes the Neighborhood Improvement District (NID) fund family; 6XX denotes the internal service fund family; and, 7XX denotes the agency and trust fund family.

Department Numbers are four (4) digit number assigned to each department. Departments within the general revenue fund begin with the digit "1". For all other departments, the first three digits of the department number represent the fund number. For example, the department numbers for Public Works include #2040, #2045, and #2049. These budgets are included in the Road and Bridge Fund, #204, which belongs to the special revenue fund family.

Description of the Accounting and Budgeting System cont'd

Account Numbers are used to break revenue and expense accounts into various categories, or classes. For expenditures, budgetary control is exercised at the class level. These accounts are briefly described below by account name, number and description.

■ Revenue Accounts

- Property Taxes 03000-03099
Real estate and personal property tax levied on the assessed valuation of real estate and personal property.
- Sales Taxes 03100-03199
Taxes imposed on the sale or use of selected goods and services.

Fiscal and Budget Policies

Boone County is a statutory elective form of government. Specific powers and responsibilities are granted to each elected official according to state law. The three-member County Commission has ordinance-making powers as granted to it by the Missouri state legislature as well as exclusive control of County property. The County Commission also has final authority over the County Budget, except for certain special revenue funds where the Missouri state legislature has granted final budget authority to individual elected officials.

The fiscal year of the County begins on January 1st and ends on December 31st of each year. The fiscal year constitutes the budget and accounting year.

Revenue Policy:

- To the extent allowed by law, the County will endeavor to maintain a diversified and stable revenue base to minimize the effects of economic fluctuations as well as eliminate an over dependence on any single revenue source.
- The County will project and update revenues annually. These revenue forecasts will be presented to the County Commission as a part of the proposed budget prepared and submitted by the County Auditor.
- Department Directors and Elected Officials will submit their revenue estimates for the current year and projected revenue for the next year to the County Auditor.
- Revenue trends are to be examined monthly and incorporated into annual revenue forecasts.
- The County does not use revenue sources while legal action is pending.
- User fees and rates will be examined periodically and adjusted as necessary to cover the costs of providing the services.

Budget Policy:

- The County will adopt a balanced budget each year in accordance with state statutes. The budget is considered balanced if the total resources of a fund are sufficient to cover the proposed spending (appropriations and/or transfers out) for that fund.
- By September 1st of each year, each elected official, department director, or administrative authority shall prepare and submit to the County Auditor a budget request for the upcoming fiscal year. The County Auditor shall prepare a request in the event that no request is received by the September 10th.
- The County Auditor shall submit a proposed budget to the County Commission by November 15th of each budget year.
- Expenditures proposed in the budget for each department, office, or agency shall be itemized by character, object, function, and fund.
- In no event shall the total amount of the proposed expenditures for a specific fund exceed the total resources available to the fund.
- The budget will provide for adequate maintenance of capital, plant, and equipment and for their orderly replacement.

Fiscal and Budget Policies cont'd

- The County will avoid balancing current expenditures at the expense of meeting future years' expenses.
- The County will give highest priority to the use of one-time revenues to the funding of capital assets or other non-recurring expenditures.
- Realistic revenue projections will reflect conservative assumptions.
- The County Commission or the County Auditor shall hold at least one public hearing on the budget submitted by the County Auditor, at which all interested persons shall be given an opportunity to be heard.
- The County Commission shall publicize all changes made to the proposed budget received from the County Auditor prior to adopting the final budget.
- The County Commission shall adopt the budget by majority vote by January 10th, the first month of the budget year. The County Commission shall adopt the budget by majority vote by January 31st, the first month of the budget year in the year in which any commissioners' new term of office begins. If the County Commission does not take action by the required date, the prior year's annual appropriation order will continue in force until adoption occurs.
- The budget shall be on record in the County clerk's office and open to public inspection. In addition, a copy of the budget is available for view at the Columbia Public Library and on the County's web site <http://www.showmeboone.com> or www.showmeboone.com.
- The County will annually submit documentation to obtain the GFOA Distinguished Budget Presentation Award.
- After adoption of the budget, the budget can be amended via county commission order in accordance with state statutes. The County Auditor may submit budget amendment requests to the County Commission to increase expenditures or revenues. When the County Commission approves the order, additional appropriations are made in the appropriate accounts.
- All appropriations shall lapse at the end of the budget year to the extent that they have not been expended or lawfully encumbered.

Capital Improvements Policy:

- The County will identify the estimated costs and potential funding sources for each capital improvement project proposal before it is submitted to the County Commission for approval.
- The County will identify the estimated on-going operational costs and the potential funding sources for each capital improvement project proposal before it is submitted to the County Commission for approval.
- Capital improvement projects will be incorporated into the Annual Budget.

Fixed Asset and Capital Asset Policy:

- Revised Statutes of Missouri require that fixed assets be inventoried if they have an estimated life of more than one (1) year following the date of acquisition and have a purchase cost of \$250 or more. Items which cost less than \$250 and/or have a life of one year are not required to be accounted for as a fixed asset.
- For financial reporting purposes, the County observes a capitalization threshold of \$5,000. Assets meeting this threshold are considered to be capital assets.

Fiscal and Budget Policies cont'd

However, all assets with a value of \$250 or more (as noted above and required by state statute) are carried on the County's inventory and are subject to property control procedures. Capital assets and non-capital assets combined are referred to as fixed assets.

- For financial reporting purposes, the County expenses all fixed assets that do not meet the capitalization threshold. The County depreciates all assets that meet the capitalization threshold. Depreciation is based on useful lives that have been established for each classification of assets (office equipment, vehicles, buildings, etc.).
- Purchase cost of a fixed asset includes freight, installation charges, carrying cases, adaptors and other items which are connected to the fixed asset and necessary for its operation or use.
- The capitalization threshold is applied to individual fixed assets rather than to groups of fixed assets.
- A small tag with a fixed asset number will be issued by the County Auditor for all items to be added to County inventory records. Said tag will be affixed to the fixed asset until such time it is declared surplus property and properly disposed of in the manner authorized by the County Commission. (In the case of property that cannot be reasonably tagged, such as software and vehicles, the inventory tag will be kept with title or license agreement.)
- Offices and departments will notify the County Auditor of any change in location or loss of a fixed asset.
- The County Auditor will conduct physical inventories on an annual basis.
- Offices and departments will exercise control over their fixed assets by establishing and maintaining adequate control procedures at the departmental level.

Accounting Policy:

- An independent financial audit shall be made of all accounts of the County at least annually and more frequently if deemed necessary by the County Commission.
- The County will prepare its financial statements in accordance with generally accepted accounting principles (GAAP).
- The County will prepare a Comprehensive Annual Financial Report (CAFR).
- Complete disclosure will be provided in the financial statements and bond representations.
- The County will annually submit documentation to obtain the Certificate of Achievement for Excellence in Financial Reporting from GFOA.

Purchasing Policy:

- The purchasing director shall have responsibility for and authority to contract for and purchase all supplies, materials and equipment required for the operation and maintenance of offices, departments or agencies of the County as directed by the County Commission.
- The County encourages competitive business practices through public bidding or requests for proposals wherever possible and feasible.

Fiscal and Budget Policies cont'd

Debt Policy:

- The County may issue general obligation bonds, revenue bonds, special obligation bonds, and short-term tax anticipation notes as authorized by state statutes. The County may also enter into lease-purchase agreements.
- The County may issue refunding bonds for the purpose of refunding, extending or unifying the whole or any part of its valid outstanding revenue bonds.
- The County will limit long-term debt to only those capital projects that cannot be financed from current revenue or other available sources.
- The County will follow a policy of full disclosure on every financial report and bond prospectus.
- When the County finances capital projects by issuing bonds, it will repay the bonds within a period not to exceed the expected useful life of the projects.
- The County's policy shall be to manage its budget and financial affairs in such a way so as to ensure continued high bond ratings.
- No general obligation bonds shall be issued without approval of the requisite number of qualified voters, as required by state statute.

Reserve (Fund Balance) Policy:

- Fund balances will be maintained at levels that will provide adequate operating reserves should the County experience an economic downturn
- The County will calculate and maintain an unreserved, undesignated fund balance equal to at least 15% to 20% of expenditures for the adopted budget for the general revenue fund. For other significant operating funds (Assessment Fund and Road and Bridge Fund), the amount will be equal to at least 5% to 10%. These funds will be used to avoid cash flow interruptions, generate interest income, reduce need for short-term borrowing and assist in maintaining what is considered an investment grade bond rating capacity.
- Self Insurance Reserves shall be maintained at a level to protect the County against incurred and reported losses as well as those incurred but not reported and future losses within the retention.
- An emergency appropriation will be included annually in the General Fund to provide for unanticipated expenditures of a nonrecurring nature and/or to meet unexpected increases in costs. The amount of the appropriation will be equal to 3% of the budget, as required by state statute. Emergency appropriations may be included in other funds in amounts recommended by the County Auditor and approved by the County Commission.

Enterprise Fund Policy:

- Enterprise funds will be used to account for the acquisition, operation, and maintenance of County facilities and services which are intended to be entirely or predominately self-supporting from user charges or for which periodic net income measurement is desirable. Note: the County does not currently operate any enterprise activities.

Fiscal and Budget Policies cont'd

Internal Service Fund Policy:

- Internal Service Funds will be used to account for the provision of goods and services by one department of the County to other departments.
- Internal Service Funds are to be self-supporting from user charges to the respective user departments.
- Internal Service Funds are to only recover the complete cost of operations without producing any significant amount of profit in excess of the fund's requirements.

Summary of Long-Term Debt

Boone County is authorized by Missouri Statutes to incur general obligation debt upon voter approval and to incur special obligation debt for the purpose of purchase, construction, or expansion of county buildings.

General obligation bonds issued in conjunction with the Neighborhood Improvement District (NID) program are intended to be repaid from assessments levied against properties within the districts. Such assessments must be deposited into debt service funds that are legally restricted for payment of the bonds. The County attaches liens on the properties within the districts to secure payment of the assessments.

Debt Service expenditures included in the FY 2005 Budget total \$611,133 which represents 1.4% of the total budget (all governmental funds combined). Debt service expenditures to the General Fund for FY 2005 total \$420,315, or 1.9% of total fund expenditures, and pertain to the Series 2003 Refunding and Capital Improvement Special Obligation Bonds. The remainder of the debt service expenditures, approximately \$190,000, is related to NID general obligation bonds which is retired with special assessments and is accounted for in debt service funds.

Debt payable as of January 1, 2005 is composed of the following:

General Obligation Bonds:

Budget Terms

Accounting Period-A period at the end of which, and for which, financial statements are prepared. See also Fiscal Period.

Accounting System-The total structure of records and procedures that identify, record, classify, and report information on the financial position and operations of a governmental entity or any of its funds.

Accrual Basis-A basis of accounting in which transactions are recognized at the time they are incurred, as opposed to when cash is received or spent.

Accrue-To record revenues when earned and to record expenditures (or expenses) as soon as they result in a liability for benefits received, even though the cash receipt or cash disbursement may not take place, in whole or part, until a later accounting period.

Ad Valorem Tax-A tax in proportion to value. A tax levied on the assessed value of real and personal property, also known as property tax.

Adoption-Formal process by which a final budget is approved by the governing body.

Agency Fund-A fund consisting of resources received and held by the governmental unit as an agent for others; for example, property taxes collected and held by the County on behalf of the various taxing jurisdictions within the County.

Appropriation-Expenditure authority approved by the governing body with specific limitations as to amount, purpose, and time.

Assessed Valuation-The official value placed on real estate, personal property, and utilities as a basis for levying taxes. The value is determined by applying a factor to the appraised value, depending on property classification.

Assessment Ratio-The ratio at which the tax rate is applied to the tax base.

Authorized Positions-Employee positions, which are authorized in the adopted budget, to be filled during the year.

Available (Unreserved and Undesignated) Fund Balance-This refers to the funds remaining from the prior year(s) which are available for appropriation and expenditure in the current year.

Bond-Mechanism for long-term borrowing of funds. The County uses bonds as a means of borrowing money to finance large capital projects. Lenders (purchasers of the bonds) are repaid principal and accrued interest in semiannual installments.

Bond-- General Obligation (GO) Bond-This type of bond is backed by the full faith, credit and taxing power of the government. Principle and interest payments are generally paid from property taxes levied specifically for this purpose.

Bond-- Revenue Bond-This type of bond is backed only by the revenues from a specific enterprise or project, such as a hospital or toll road.

Budget-A plan of financial operation including an estimate of proposed revenue and expenditures for a given period. Formal budgets constitute a legal spending limit for

Budget Terms cont'd

local governments in Missouri. They are the means by which most government activities are controlled.

Budget Amendment—Legal means by which an adopted budget may be increased. The process involves the same legal steps as the original adoption of the budget.

Budget Revision—Authorization to reallocate existing budgetary resources between classes within a given department or to reallocate existing budgetary resources between departments.

Budget Timetable (or Budget Calendar)—The schedule of key dates which a government follows in the preparation and adoption of the budget.

Budgetary Control—The control or management of a government in accordance with the approved budget for the purpose of keeping expenditures within the limitations of available appropriations and resources.

Budgetary Resources—A term that includes new budgetary authority for the period plus un-obligated budgetary authority carried over from the prior period

Capital Budget—A one-year budget approved by the County Commission for improvements to facilities and other infrastructure. It prioritizes projects and allocates necessary resources. The Capital Budget is also known as the Fixed Assets Budget.

Capital Improvement—Expenditures related to the acquisition, expansion or rehabilitation of an element of the government's physical plant or infrastructure.

Capital Improvement Program (CIP)—A plan for capital outlay to be incurred each year over a fixed number of years to meet capital needs arising from the government's long-term needs.

Capital Outlay

(Class "9")—Fixed assets which have a value of \$250 or more and have a useful economic lifetime of more than one year; or, assets of any value if the nature of the item is such that it must be controlled for custody purposes as a fixed asset.

Capital Project—Major construction, acquisition, or renovation activities which add value to a government's physical assets or significantly increase their useful life. Also called capital improvements.

Capital Project Fund—A governmental fund used to account for the revenues and expenditures associated with acquisition, construction, or renovation of specific assets.

CART—County Aid Road Trust

CHAS—CH Allied Services, Inc. (lessee of Boone Hospital Center)

Comprehensive Annual Financial Report (CAFR)—A governmental entity's official annual report prepared and published as a matter of public record. In addition to the required financial statements, the CAFR contains introductory material, schedules to demonstrate legal compliance, and statistical tables specified by the GASB.

Budget Terms cont'd

Contractual Services—Services rendered to a government by private firms, individuals, or other governmental agencies. Examples include utilities, rent, maintenance agreements, and professional consulting services.

Cost-of living Adjustment (COLA)—An increase in salaries to offset the adverse effect of inflation on compensation.

CPI—Consumer Price Index

Current Assets—Those assets that are available or can be made readily available to meet the cost of operations or to pay current liabilities. Examples include cash, temporary investments, and taxes receivable.

Current Liabilities—Liabilities payable within a relatively short period of time, usually no longer than a year.

Debt Limit—The maximum amount of gross or net debt that is legally permitted.

Debt Margin—The difference between the amount of the debt limit and the net amount of outstanding indebtedness subject to the limitation; i.e., the amount of additional debt that can be incurred by a governmental entity and still remain compliant with the debt limit.

Debt Service—Payments of interest and repayment of principal on borrowed money.

Debt Service Fund—A governmental fund used to finance and account for payment of principle and interest on tax-supported (general obligation) debt and special assessment debt.

Department—The basic County organizational unit, functionally unique in delivery of services.

Distinguished Budget Presentation Awards Program—A voluntary awards program administered by the Government Finance Officers Association to encourage governments to prepare effective budget documents.

Employee (or Fringe) Benefits—Contributions made by a government to meet commitments or obligations for employee fringe benefits. Included are the government's share for Social Security and the various pension, medical, dental, disability, and life insurance plans.

Encumbrance—A commitment of appropriated funds to purchase an item or service, though actual disbursement has not yet occurred. To encumber funds means to set aside or commit funds for a specified future expenditure.

Enterprise Fund—A fund established to finance and account for the acquisition, operation, and maintenance of governmental facilities and services that are entirely or predominantly self-supporting by user charges (for instance, a governmental utility).

Expenditure—An outlay of cash or the incurrence of a liability for the purpose of acquiring an asset, service, or settling a loss.

Expenditure Class—A grouping of similar expenditures. Expenditure classes and their respective Boone County line item code prefixes are fully described in the "Description of the Accounting and Budgeting Systems" section.

Budget Terms cont'd

Fiscal Policy—A government's policies with respect to revenues, spending, and debt management as these relate to government services, programs, and capital investment. Fiscal policy provides an agreed-upon set of principles for the planning and programming of government budgets and their funding.

Fiscal Period or Fiscal Year—A twelve-month period designated as the operating year for accounting and budgeting purposes in an organization. The County's fiscal year coincides with the calendar year.

Fixed Asset—Assets of long-term character that are intended to continue to be held or used, such as land, buildings, machinery, furniture, and other equipment.
