Subject: Skid Steer attachment needs

The Public Works Department requests the replacement of a Sweepster skid-steer mounted bucket style sweeper. The sweeper that we have is completely worn out and is in need of major reconstruction to make useable. The older unit was purchased in the past (date unknown) and was either purchased with a skid steer or was under the purchasing threshold and did not require a fixed asset number.

We were trying to find a way to get rid of several skid steer attachments (almost new condition) that we have but seldom ever use. They are:
79" Bobcat bucket grapple; Serial Number 23200588, Model Number 80 INDL BKT GRAPL and,
7' KwikWay reversing snow plow blade; Serial Number MO40460-130, Model Number 35-12610.

The above items were evidently purchased the same way as the Sweepster and have no fixed asset numbers. The procurement date(s) for the above are not known.

In a search to price out a new unit, we found a slightly used unit at Crown Power and equipment. The vendor offered to trade the slightly used Sweepster for the two items above in an even trade. They did not want the old sweeper unit. The price requested for the Sweepster is \$2,750 and the price offered for the two attachments is \$1,375 each (both total \$2,750).

The Department recommends to trade out the units to obtain a working skid-steer mounted broom which will be used extensively. Attached are pricing sheets of new units for all equipment involved in the trade. Also attached are fixed asset disposal forms for the grapple and the plow in the event that this request is approved. It is recommended that the Department also dispose of the old broom regardless of the decision to trade equipment. A disposal form for the unit is attached also.
