Neighborhood Improvement District Administration

Department Number 1340

Mission

This budget is administered by Public Works and is intended to provide administrative support for the Neighborhood Improvement District (NID) program. The Missouri statutes authorize the County Commission to establish a neighborhood improvement district and approve a specific improvement project. Although the statutes allow formation of a NID pursuant to either a petition or election process, Boone County policies only allow a petition process. The NID statutes permit a wide array of improvement projects; however, County policy limits such projects to road and/or sewer projects.

All costs of the improvement project are borne by property owners contained within the boundaries of the NID. To the extent possible, the administrative costs incurred in this budget will be charged to specific NID projects and ultimately billed back to property owners within the given NID.

Budget Highlights

NID activity levels are insufficient to justify staff dedicated solely to this program. However, there is a need for NID coordination and administration which is provided by existing Public Works staff, with appropriate reimbursement being made to Public Works from this budget.

NID activity levels are not expected to change in the near future. As a result, there are no significant changes in this budget.

Goals and Objectives

Budget Year Objectives

- Build a minimum of one road project.
- Build a minimum of one sanitary sewer project.
- Process all applications when received.
- Have a collection and tracking program developed, online and in operation.
- Continue to account for all reimbursable man-hours and costs that are related to a specific NID project for auditing purposes.
- Continue to bill NID budget to reimburse the Design and Construction Department for all man hours invested in potential projects. Projects will be back charged for all time involved.
- Continue to limit Design and Construction expenditures on proposed NID projects before the actual Notice to Proceed has been ordered.

Neighborhood Improvement District Administration

■ Continue to monitor potential and actual legislative changes to the NID statutes.

Progress on Prior Year Objectives

- Build a minimum of one road project.
 Response: One road project has been built. There are currently three projects waiting to bond.
- Build a minimum of one sanitary sewer project.
 Response: No sanitary sewer projects were built this year.
- Process all applications when received.
 Response: All applications have received a response. Three are awaiting an initial meeting, while two have been resurrected and are awaiting a revised petition.
- Get a collection and tracking program developed, online, and in operation.
 Response: This project has been put on hold until Information Technology (IT) is caught up with priorities.
- Have all sanitary sewer projects developed and processed through the Boone County Regional Sewer District (BCRSD).
 Response: BCRSD has been handling the day to day activity concerning sanitary sewer NIDs. All other activities have remained the same.
- Account for all reimbursable man-hours and costs that are related to a specific NID project for auditing purposes.
 Response: On-going.
- Limit Design and Construction expenditures on proposed NID projects before the actual Notice to Proceed has been ordered.
 Response: On-going.
- Monitor potential and actual legislative changes to NID statutes.
 Response: On-going.

Solid Waste Recycling

Department Number 1360

Mission

This budget is intended to assist in the implementation of the Comprehensive Solid Waste Management Plan for Mid-Missouri Solid Waste Management District, Region H, to meet the State mandated goal to reduce the amount of solid waste going into landfills 40% by 1998 and to continue to maintain this reduction. In addition, it is intended to: study, explore, examine, and research solid waste issues confronting the citizens, businesses and environs of Boone County; to promote the responsible management of solid waste through education and implementation of recycling and waste reduction programs; and to coordinate solid waste management solutions with public agencies, organizations, community and civic groups.

Budget Highlights

There are no significant changes in this budget.

Goals and Objectives

Budget Year Objectives

- Maintain the permanent recycling program at the three remaining established sites and continue to troubleshoot problems that arise in the administration and operation of the program, particularly the contamination problems.
- Consolidate the processing, hauling and maintenance into service from a single service provider.
- Review and analyze data obtained from the administration of the recycling program and assess the level of program success.
- Establish a recycling program for the Sheriff's Office/Jail facility.
- Represent the County on various boards and committees related to Solid Waste.

Progress on Prior Year Objectives

■ Maintain the permanent recycling program at the three remaining established sites and continue to troubleshoot problems that arise in the administration and operation of the program, particularly the contamination problems.

Response: Timeliness of hauls after notification should be addressed by switching to the City of Columbia for both processing and hauling services. The Solid Waste Program has been and plans to continue operating the three remaining sites. Harrisburg requested the relocation of their site, which was recently undertaken.

Solid Waste Recycling

- Consolidate the processing, hauling and maintenance into service from a single service provider.
 Response: The County Solid Waste Program has received informal confirmation that the City is interested in becoming the hauler as well as the processor; however, working out the details is a slow process.
- Review and analyze data obtained from administration of the recycling program and assess the level of program success.
 Response: Data from the past is too scattered to actually draw direct conclusions with respect to diversion rates. This is primarily due to failure of service providers to document weight tickets. What can be concluded is that a change to the City for both hauling and processing will provide proper documentation since they must document their own activities in a similar manner.
- Establish a recycling program for the Sheriff's Office/Jail Facility. **Response:** Pursuit of this activity is still under consideration and discussion, but is waiting until other factors are resolved to finalize the nature of this program.
- Represent the County on various boards and committees related to Solid Waste.

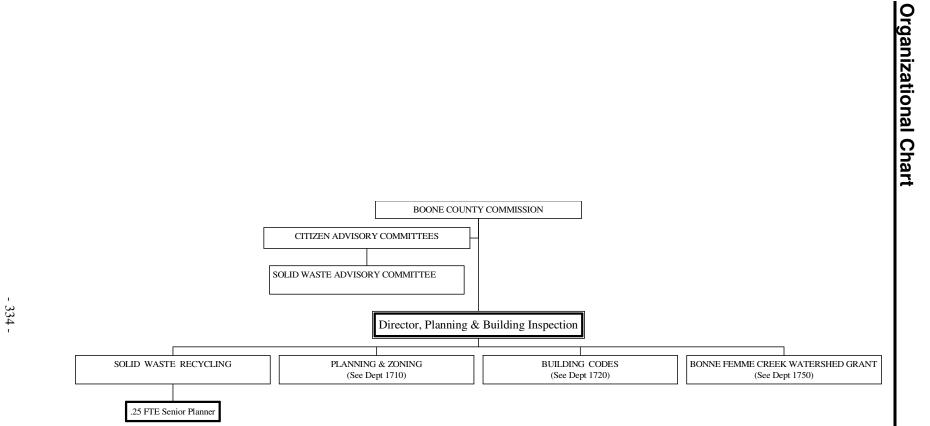

Response: The County Solid Waste Coordinator attends all the Mid-Missouri Solid Waste Management District H executive board meetings as the alternate for the County Commission Representative or as support. The County Solid Waste Coordinator attends all the Mid-Missouri Solid Waste Management District H advisory committee meetings as the Boone County Representative and is the current vice-chairman of the committee.

Boone County Regional Sewer District Management Services

Department Number 1370

Mission

This budget provides management services to the Boone County Regional Sewer District pursuant to a cooperative agreement signed by the Boone County Commission and the Boone County Regional Sewer District (BCRSD) Board of Trustees in October, 2000. The BCRSD reimburses the County for all costs incurred pursuant to this agreement.

The Boone County Director of Planning & Building Inspections provides BCRSD Executive Director services pursuant to the cooperative agreement.

Budget Highlights

There are no significant changes to this budget.

Public Works Summary

Department Numbers 2040, 2045, 2049 and 2080

Description

The County's road and bridge public works activities are funded primarily with the proceeds of a one-half cent sales tax and supplemented with property tax revenues, fuel taxes and other miscellaneous revenues. Maintenance Operations are included in the budget for department number 2040; Design and Construction activities are included in the budget for department number 2045. Payments to cities and special road districts are included in the budget for department number 2045. The sales tax revenues are accounted for in the budget for department number 2049. The sales tax revenues are included in department 2049. Detailed information is presented for each of these budgets on the following pages.

Department Number 2040

Mission

Public Works - Road and Bridge Maintenance is responsible for the upkeep and repair of 800 miles of roads and the associated right-of-ways as well as bridge and other drainage structures in Boone County. Routine and preventative maintenance includes applying gravel to rural roads, asphalt and concrete patching and sealing, roadside ditching, vegetation control, and bridge maintenance and repair. Traffic services provided include street signing, regulatory signing, dust control, and snow and ice control.

Budget Highlights

The budget includes appropriations for general road maintenance and routine equipment repair and replacement to accomplish the goals outlined below. The FY 2006 appropriations total \$9.6 million. Appropriations related to roadway capital improvements and major reconstructions are included in department number 2045.

Goals and Objectives

Budget Year Objectives

- Provide routine grading and gravel for the County's approximately 535 miles of gravel roads.
- Prioritize replacement and addition of culvert pipes throughout the County.
- Provide snow removal using a combination of in-house staff and contracted services.
- Reclaim and rebuild approximately 4 miles of failed chip and seal roads.
- Repair approximately 10 miles of failed chip and seal roads.
- Re-apply chip and seal to approximately 30 miles of chip and seal roads.
- Apply asphalt overlay to 5.3 miles of existing asphalt pavements.
- Apply a pavement preservation chip and seal application on approximately 12.2 miles of existing asphalt pavements.
- Apply a pavement preservation micro-surfacing on approximately 1 mile of existing asphalt pavements.
- Provide annual street sweeping for curb and gutter subdivision roads.
- Apply bridge deck sealer and make minor bridge deck repairs.

- Provide traffic signage and signage maintenance on the County maintained roads.
- Provide striping on specific County roads.
- Provide routine equipment maintenance, repair and replacement.
- Enhance and promote safety.

Progress on Prior Year Objectives

- Provide routine grading and gravel for the County's approximately 535 miles of gravel roads.
 Response: This objective has been met. The County is divided into nine districts with a motor grader operator assigned to each district.
- Prioritize replacement and addition of culvert pipes throughout the County. **Response:** This objective was met. The County leased a rubber tired backhoe to supplement the three rubber tired backhoes and excavator doing pipe installation and replacement. Approximately \$215,000 was spent on metal pipe culverts in 2005.
- Provide snow removal using a combination of in-house staff and contracted services.

Response: This objective was met. Public Works contracted for snow removal in subdivisions via the competitive bid process. Snow removal on all other County roads was provided by Road and Bridge Maintenance staff.

- Reclaim and rebuild approximately 10 miles of failed chip and seal roads. **Response:** This goal was partially met. The County completed the reclaim and rebuild of approximately 7 miles of failed chip and seal roads. An additional 3 miles of failed roads have been reclaimed and rebuilt with the chip and seal application to be completed in 2006.
- Repair approximately 20 miles of failed chip and seal roads.
 Response: This goal was partially met. Repairs were made to approximately 10 miles of failed chip and sealed roads. Additional failed chip and sealed roads will be repaired in 2006 under routine maintenance.
- Re-apply chip and seal on the above referenced 30 miles of repaired chip and seal roads.
 Response: This goal was met. County maintenance crews re-applied over 46 miles of single application road miles of chip and seal on failed and reclaimed roads in 2005.
- Apply asphalt overlay on approximately 2 miles of existing asphalt pavement.

Response: This goal was met. The County contracted for 2.95 miles of asphalt overlay over existing asphalt.

- Apply a pavement preservation chip and seal application on approximately 11 miles of existing hard surface roads.
 Response: This goal was met. The County contracted for 11.22 miles of preservation chip and seal over existing hard surface roads.
- Apply shoulder rock for drop edge treatment on approximately 15 miles of hard surface roads.
 Response: This goal was partially met. Drop edge treatment was applied as directed on specified roads.
- Repair major slab failure (concrete surface) in three subdivisions.
 Response: This goal was partially met. Major concrete slab repair was completed in one subdivision. It was determined to contract the concrete repair in the other two subdivisions. One of these projects was completed in 2005, and the other will be contracted for completion in 2006.
- Provide street sweeping for curb and gutter subdivision roads.
 Response: This goal was met. The street sweeping was completed by contract services in the spring of 2005.
- Provide traffic sign replacement throughout the County.
 Response: This goal was completed. New and replacement signs are provided as needed continuously.
- Provide routine equipment maintenance, repair and replacement.
 Response: This goal was met. Equipment maintenance and replacement are scheduled routinely.
- Recruit and hire four new maintenance workers in FY 2005.
 Response: This goal was met. Four additional maintenance workers were hired in 2005, and Public Works Road and Bridge Maintenance is currently at full staff.

Department Number 2045

Mission

Public Works - Design and Construction is responsible for initiating, monitoring, and completing capital improvement projects related to Boone County's transportation network. The projects include, but are not limited to, those authorized by the one-half cent sales tax package that was approved by voters in 1993 (Proposition I) and renewed for an additional 10 years in 1998 (Proposition II). This Division conducts and coordinates the inspection and acceptance of subdivision streets as well as provides technical assistance to other County offices. The Division also administers the Neighborhood Improvement District (NID) program. (The operating budget for the NID program is funded in the General Fund; please refer to department number 1340.)

Budget Highlights

The budget includes appropriations of more than \$5.3 million to implement the budgetary goals outlined below. Appropriations related to general maintenance and routine equipment repair and replacement are included in department number 2040.

Goals and Objectives

Budget Year Objectives

- Design, bid and construct McBaine Bridge Project in accordance with procedures/reporting requirements inherent in utilization of federal funding and coordination of intergovernmental cooperative projects.
- Bid and construct two street and drainage improvement projects (designed in 2005) in Lake of the Woods (Phase II) and Boone Industrial subdivisions.
- Design, bid and construct two bridges (Tucker School and Thomas Hill).
- Design four bridges for construction in 2007.
- Design, bid and construct four low water crossings (Thomas Hill Road, Bell Road, Moreau Road and Jemerson Creek Road).
- Design, bid and construct a modified low water crossing (subject to federal approval for Flood Plain Development) on Green Road.
- Design, bid and construct a drainage improvement project at the Hackberry Boulevard/Clearview Road intersection.
- Continue administration of intergovernmental cooperative project to connect Scott Boulevard to State Route K. Bid and construct the Route K at future Scott Boulevard intersection project.

- Design, bid and construct asphalt pave in place projects on Schooler Road, Martin Lane and Crump Lane.
- Design the drainage improvements and chip seal project on Boothe Lane.
- Design, bid and construct four structures for improvement of stormwater drainage.
- Design, bid and construct inlets to improve stormwater drainage in Georgetown subdivision.
- Assist State and City of Columbia in funding Environmental Impact Study for Highway 740.
- Enter into and complete design contract for Sunrise Estates Storm Drainage and Street Improvement Project.
- Enter into and complete design contract for Creasy Springs Road Improvements (cooperative agreement with City of Columbia).

Progress on Prior Year Objectives

Design, bid and construct seven arch/bridge projects (Patton Road, High Point Lane, Ellis School Road, Perche Church Road, Worstell Lane, Martin Lane, and Crump Lane).

Response: All bridges were designed and contracted in 2005. As of this printing, the bridges on Martin Lane, Crump Lane, Patton Road and Perche Church Road have been completed. The bridges on Ellis School Road and Worstell Lane are 95% complete and open to traffic. Only miscellaneous site restoration items remain to be completed in early 2006. The bridge on High Point Lane will be completed early in 2006, following relocation of a Boone Electric power transmission line.

 Bid and construct two bridge repair projects (Lipscomb Road Bridge and Rolling Hills Road Bridge).

Response: Repairs needed on Lipscomb Bridge were transferred to the Maintenance Operations Department for bridge deck repairs to be made in 2006. Two bridges were identified for repair on Rolling Hills Road. Repairs were made on the northernmost bridge. A cooperative agreement to share cost with the City of Columbia for repairs to the southernmost bridge was presented to the City in 2005, but is still under review. Upon execution of an agreement, completion of repairs to the southern bridge is anticipated in 2006.

 Design, bid and construct six culvert replacement projects (Boatman Hill Road, Smith Hatchery Road, Callahan Creek Road, Coats Lane, River Road, and Bethel Church Road).
 Response: Boatman Hill, Clark Lane and Bethel Church were designed, contracted and completed. Smith Hatchery and Callahan Creek were contracted in late 2005. Work began in 2005, and will be completed in early 2006. After the Coats Lane and River Road projects were designed, the work

was completed by the Maintenance Operations Department instead of contracting the work.

Design, bid, and construct four curve realignment projects (Dozier's Station Road, Wolfe Road, Kircher Road and Schooler Road).
 Response: Design, utility relocations, and right-of-way work was completed for Kircher Road Project in 2005, and the project will be completed by the Maintenance Department in 2006 instead of contracting the work. Schooler Road was designed and contracted late in 2005. Preliminary work was started in 2005, and completion of the work is expected in the spring of 2006. Wolfe Road project is complete. After the Dozier's Station improvement was designed, the work was completed by the Maintenance Department rather than contracting the work.

- Design, bid and construct three subdivision projects (Lake of the Woods Subdivision Phase I, Trails West Subdivision and Clearview Subdivision).
 Response: The Lake of the Woods project was designed and contracted with an additional section of 161 feet of Grace Lane added to the contract; all work except minor clean-up was completed in 2005. Trails West was designed and contracted late in 2005, with work expected to begin in March of 2006. The Hackberry Boulevard/Clearview Road Intersection Drainage Project has been rebudgeted for 2006.
- Design, bid and construct one low water crossing on Porter Road.
 Response: This project was designed and contracted late in 2005 with work to be completed in early 2006.
- Bid and construct a safety project to lower hill at Godus Development on Clark Lane.
 Response: Project completed.
- Assist in funding the construction of the intersection of Grace Lane and Richland Road.
 Response: Project completed.
- Design, bid and construct bank stabilization projects at two locations on Jemerson Creek Road. Complete a study of other potential bank stabilization sites on the road.

Response: Boone County has been advised that this project will qualify for Federal Emergency Management Agency (FEMA) funding; therefore, it has been deferred to 2006 in anticipation of federal assistance to fund this project.

 Assist in funding and overseeing the construction of connecting Scott Boulevard to State Route K.
 Response: Securing right-of –way and coordinating necessary utility relocations has been procured Actual construction in anticipated to begin June 2006.

- Fund the electrical relocation for Hackberry Road Extension.
 Response: Project has been deleted as no specific plans for completion of the extension have been brought forward.
- Design, bid and construct the road widening and stream channel relocation project on Soft Pit Hill Road.
 Response: Project completed.
- Enter into and complete a design contract for street and drainage improvements on Boone Industrial Drive.
 Response: A design contract has been executed. Design plans and bid documents are 95% complete.
- Enter into and complete a design contract for street and drainage improvements in Lake of the Woods Subdivision.
 Response: Project completed.
- Enter into and complete a design contract for embankment repair and guardrail installation on Minor Hill Road.
 Response: Re-evaluation of this project resulted in moving its design and construction to the Maintenance Department and a Term and Supply vendor to be completed in 2006.
- Enter into and fund the 2005 Community Storm Water Project for education outreach. Enter into and complete a design contract for Base Flood Elevation determination for low water crossings.
 Response: An education and outreach program was funded and carried out via a cooperative agreement with the City of Columbia and AmeriCorps. FEMA announced in 2005 that it would be conducting a study that would update the Base Flood Elevation maps of Boone County which has rendered this project unnecessary.
- Enter into and complete a contract for strategic planning.
 Response: This objective is not being pursued at this time.
- Enter into a term and supply contract for landscaping and erosion control services.

Response: No situation arose in 2005 requiring this service; however, there is an anticipated need in 2006. A contract proposal is currently under review with expected execution in early 2006.

Performance Measures

| Performance Measure | 2005 Estimated | 2006 Projected |
|--|-------------------|-------------------|
| Total Number of Right of Way Acquisitions | 9 | 15 |
| Number of Excavation Permits Issued | 165 | 200 |
| Review of Roadway Plans for New Road Construction | 7 | 5 |
| Miles of Roadways Taken to Commission for Acceptance | 1.65 | 1.5 |
| Number of Driveway Culvert Permits Issued | 154 | 200 |
| Number of Permits for New Road Construction | 4 | 4 |
| Number of Major Road Reconstruction Projects | 4 | 4 |
| Number of Traffic Counts | 308 | 325 |
| Number of Bridge Replacements/Reconstructions | 6 | 4 |
| Number of MoDNR Monuments Set | 10 | 10 |

Public Works – Administration

Department Number 2049

Mission

This budget accounts for revenues and other resources dedicated to road and bridge activities. It also accounts for expenditures that are not attributable to either Road and Bridge Maintenance (department number 2040) or Design and Construction (department number 2045), such as revenue sharing, rebates, and replacement revenue payments made to cities and the Centralia Special Road District.

Budget Highlights

The County is required to rebate a portion of state-derived revenues (such as CART revenues) to the Centralia Special Road District. This budget accounts for these rebates.

Passage of the one-half cent sales tax was accompanied by a voluntary roll-back of the property tax levy from \$.29 to \$.05 per \$100 assessed valuation. This voluntary roll-back in the property tax rate reduces the amount of a 25% property tax rebate paid to local jurisdictions. To mitigate this situation, the Commission established Replacement Revenue Payments which are intended to not only restore the lost revenue to these jurisdictions, but to provide additional resources beyond what they would have received for the 25% rebate. The total amount paid to each jurisdiction is determined by formula and is equal to 1.5 times the amount that would have been distributed as a 25% rebate of property taxes based on a tax levy of \$.29 per \$100 assessed valuation.

The County Commission also appropriates payments to municipalities and the Centralia Special Road District for Revenue Sharing. Revenue Sharing is intended to provide resources to cities and special road districts within Boone County to assist them with road improvement projects. The County Commission annually determines the amount to be appropriated for Revenue Sharing.

Funding levels from 1996 to the present for Revenue Sharing, Rebates to the Special Road District, and for Revenue Replacement are listed below:

&

| | | Rebates to S | pecial Road District & | | | |
|------|-------------|-------------------------------------|------------------------|--|--|--|
| Reve | nue Sharing | Replacement Revenue Payments | | | | |
| Year | Amount | Year | Amount | | | |
| 1996 | \$ 200,000 | 1996 | \$ 925,080 | | | |
| 1997 | \$ 200,000 | 1997 | \$ 955,416 | | | |
| 1998 | \$ 200,000 | 1998 | \$1,108,900 | | | |
| 1999 | \$1,344,000 | 1999 | \$1,211,764 | | | |
| 2000 | \$ 752,000 | 2000 | \$1,298,383 | | | |

Road Sales Tax

Department Number 2080

Mission

This budget accounts for all road sales tax revenue received from the one-half cent sales tax approved by voters in 1993 and in 1998 renewed by voters for an additional 10 years. The current sales tax is set to expire third quarter of 2008. Sales tax and the interest on sales tax are the only revenues recorded in this budget. This budget also accounts for the amount of sales tax revenues required in order to finance the operations of the Public Work's budgets (Maintenance-2040; Design and Construction-2045; and Administration-2049). These amounts are reported as operating transfers.

Budget Highlights

There are no significant changes included in this budget.

Fairground Capital and Maintenance

Department Number 2120

Mission

The Fairground Capital and Maintenance Fund was created in FY 2002 by local policy. It accounts for the net insurance proceeds (approximately \$500,000) received during 2002 from losses sustained at the Boone County Fairgrounds. The County Commission elected to not rebuild some of the structures; instead, the monies were set aside in a special revenue fund to be used to address maintenance needs. This budget reflects the appropriations pertaining to capital and maintenance needs of the fairground property. The County Commission approves and administers the budget

Budget Highlights

The budget includes a contingency appropriation in the amount of \$150,000. This total includes \$50,000 to be used toward a local match requirement for an Outdoor Recreation Grant, which would provide construction of baseball fields and outdoor shelters on a portion of the fairground property. An additional \$100,000 is included to be used for business operations analysis of the fairground's commercial operations.

The Commission intends to finance the outdoor recreation project with grant revenues, the \$50,000 from this budget, and contributions pledged from various private entities. At such time that the project is ready to move forward, the County will establish a capital project fund to be used to account for project costs and associated revenues; the \$50,000 will be transferred into the new fund at that time.
