**Subject:       First Reading of Budget Amendment for replacement 911 telephones**

Joe Piper, Public Safety Joint Communications stated that PSJC installed the Liberty system prior to 1996. He stated that the maintenance contract has now become a part of the City’s inventory.

Joe Piper, stated that at the time of installation, there were only a few of these systems in use. He stated that the system now has many problems and is nearly obsolete. He stated that the system’s operation is inadequate and PSJC has trouble distinguishing which calls are new calls and which are on hold. He stated that this creates problems in that valuable time is lost in the response to emergency calls. He also noted that the TDD device on the system does not work well.

Joe Piper stated that the PSJC would like to replace the Liberty system with the new Sentinel phone system.

Commissioner Miller asked if there was a possibility that the new system would become obsolete in the near future.

Jim Tollaksen, Verizon Communication stated that the new system is Sentinel’s latest software, which is one of the reasons that the Liberty system is becoming obsolete. He stated that there is an incentive with the new system from Sentinel regarding the replacement of the Liberty system.

Commissioner Stamper stated that the new system was introduced at the last Joint Communications Information Center meeting. He also noted that the County Auditor supports the purchase at this time, due to the sole source nature and the incentives that are attached.

Commissioner Stamper read the Budget Amendment into the public record as follows:

<b>AMOUNT</b>	<b>(increasing) ACCOUNT</b>
\$155,000	2020-92000 Replacement E911 Phones-Sentinel Upgrade

Said amendment is to establish a budget for replacement phones/workstation.

Commissioner Stamper noted that this item would be brought back to the Commission agenda following the required ten day waiting period for public comment.

**Subject: Country Day Subdivision**

Thad Yonke stated that this property is being divided into four lots. He stated that this required the installation of fire hydrants, which are now in place. He stated that this plat is ready to be received and accepted.

**Subject: Utilization of E911 Funds for the Centralia Police Department**

Commissioner Stamper stated that the City of Centralia has requested \$10,000 in E911 funding for the replacement of a recording device. He stated that E911 funds were used for the original purchase of recording device for the E911 calls.

Commissioner Stamper stated that most of the County's dispatching is handled through Joint Communications, however the City of Centralia Police Department has maintained its own dispatching system since its inception. He noted however that the County periodically gives funding support to the City of Centralia for the dispatching system. He stated that the funding is usually through a contract.

Commissioner Miller noted that is it shame that Centralia is not a part of the County system.

Commissioner Vogt moved to approve \$10,000 funding through the E911 Funds for the purposes of acquiring a replacement recording device and authorize the Presiding Commissioner to sign the documentation.

Commissioner Stamper seconded the motion.

Discussion: Commissioner Stamper stated that Cathy Richards, Commission Office would need to prepare a budget amendment for the funding and John Patton, County Counsel would need to prepare the contracts.

Said revision is to cover Legal Expenses for the year 2000.
